Status	APPROVED	**Classification**	Internal
Effective	1 January 2026	**Next review**	1 January 2028
Owner	Director, Passenger Experience	**Approved by**	Customer Experience Committee (decision CEC-2025-018, 28 November 2025)
Supersedes	Complaint Handling Procedure v1.4		

This is a fictional document created for training purposes.

Section 1. Principles

1.1 Every complaint and every survey comment is treated as operational data, not only as a customer issue.

1.2 Comments in any language, including Arabic and English, are handled with the same priority.

Section 2. Handling steps

2.1 Acknowledge every complaint within 1 working day.

2.2 Classify each complaint by category: immigration queue, missed flight, staff conduct, baggage, cleanliness, facilities, Wi-Fi, signage, flight information or other.

2.3 Resolve individual complaints within 10 days of receipt and record the outcome. At least 90 percent of complaints must be resolved within 10 days.

Section 3. Systemic issues

3.1 When the same category appears in 10 or more complaints within 30 days, or when it appears repeatedly in the same time slot, it is a systemic issue.

3.2 A systemic issue requires a root cause report to the Customer Experience Committee within 14 days.

3.3 The root cause report must include the affected time slots, the number of passengers affected, the estimated commercial impact, the proposed correction and the owner of the correction.

Section 4. Support for affected passengers

4.1 A passenger who missed a flight because of an airport queue longer than 45 minutes is eligible for rebooking assistance. The airport coordinates with the airline, and cash compensation is not offered under this procedure.

4.2 Passengers in a delay longer than 120 minutes are eligible for meal vouchers, as set out in the Delay Management SOP (GIA-SOP-04).

Section 5. Reporting

5.1 The Passenger Experience team reports complaint volumes, categories, time slots and resolution times monthly.

5.2 Open complaints older than 10 days are escalated to the Director, Passenger Experience.
